

## Sample medical charts and forms

<b>Title</b>	<b>Page</b>	<b>Use</b>
Discharge Form	2	A summary of patient's care while an inpatient. It is sent to the local doctor and/or district nurse to ensure continuity of care (Unit 10).
ECG request form	3	This is ordered if a patient complains of chest pain (Unit 1) and used in the pre-operative check list as part of anaesthetic work-up (Unit 8).
Biochemistry Non-blood request form	4	A request for screening of body fluids other than blood e.g. urine, faeces, semen, cerebrospinal fluid (CSF) and sweat. Various substances are tested in the body fluids. (Unit 5).
Biochemistry and Haematology Request form	5	A Full Blood Count as a general indicator of the patient's health (Unit 2), as an INR (International Normalised Ratio) check when taking warfarin (Unit 8) and to check cholesterol and triglyceride levels when taking cholesterol-lowering medication (Unit 6).
Clinical Microbiology	6	Testing urine specimens for infection (Unit 5).
Laboratory Request Form (UK)	7	A request for particular tests from Pathology (Unit 5).
Laboratory Request Form (Aus)	8	
Cardiac Care Unit	9	Combination of Glasgow Coma Scale chart (Unit 9), Diabetic Chart (unit 4) and Vascular obs. chart - used to assess blood circulation in vascular ulcers (Unit 3). It also notes specialised IV lines, IV cannulas (Unit 7), drains (Unit 9) and catheters (Unit 5).
Day Surgery Follow-up	10	This is used to check on patients after day surgery. A phone call is made to check on pain level, wound status and mobility (Unit 10).
Patient Preparation	11	Information on special preparation needed for certain tests, e.g. bowel prep (Unit 8).

**1. Instructions for Use:**

- Prior to discharge Patients are offered a post-discharge follow-up telephone call to ensure they are experiencing a satisfactory post-op recovery. The nurse will discuss their recovery progress, including pain management strategies, and assist them with their concerns, providing support and information as required.
- If the patient agrees to the call they should be contacted preferably within 24 hours after discharge but at least within 72 hours post-discharge.
- Allocate a Score of 1 if outcome achieved, if not a variance must be recorded. Enter N/A if the intervention or outcome is not applicable.
- Where relevant any ongoing problems related to the operation/procedure must be referred to the Treating Doctor and in addition the patient may require a 2nd Follow-Up Phone Call.

### PATIENT PREPARATION

The following are for adult studies. For children, or for patients who you may feel may not cope with the particular preparation, please contact our staff. For any particular diagnostic or clinical problem, please consult one of our radiologists. **If you have a history of significant allergic responses, asthma or diabetes, please tell our reception staff when making your appointment. Medication (to reduce the small risk of an allergic reaction), may be required, which can be picked up from our offices. This will be organised on an individual basis.**

### X-RAY EXAMINATIONS

**PLAIN X-RAYS:** No preparation required.

**BARIUM MEAL / SWALLOW / SMALL BOWEL STUDY:** Nothing by mouth for four hours prior to the examination.

**BARIUM ENEMA:** Preparation kit and instructions available from our offices. Clear fluid as required.

**HYSTEROSALPINGOGRAM:** Ideally should be done between the 5th and 10th day of the menstrual cycle.

**I.V.P. (I.V.U.):** Preparation kit and instructions available from our offices. Nothing by mouth for four hours prior to the examination.

**MAMMOGRAPHY:** Please do not use talcum powder or deodorant on day of the examination.

**MYELOGRAPHY:** Clear fluids only for four hours prior to the examination. Overnight stay in hospital is generally required.

### ULTRASOUND

**ABDOMEN:** Fast for 6 hours. Please do not smoke during this period. Take normal medications with a sip of water. (Note – no milk or soft drinks please).

**RENAL:** Clear Fluids only for 6 hours prior to appointment. Drink 500mls finishing at least 30 minutes prior to appointment. Then do not empty your bladder until after the examination.

**PELVIS:** It is important that you have a full bladder at the time of the examination. Drink 1 litre of clear fluid one hour prior to the appointment time. Then do not empty your bladder until after the ultrasound examination. (Note: Male pelvis – drink 500mls only)

**OBSTETRIC ULTRASOUND:** A full bladder will be required. Empty bladder one hour prior to the appointment. Drink 500mls of clear fluid over the next half hour. For obstetric ultrasound greater than 20 weeks, a full bladder is not needed.

**BREAST, THYROID ULTRASOUND, DUPLEX CAROTID, LEG VEINS, PENILE DOPPLER:** No preparation required.

**RENAL ARTERIES, ABDOMINAL AORTA DOPPLER:** Please fast for 6 hours prior to the examination, with no smoking during this time.

### C.T. SCANNING

**CT ABDOMEN, CT PELVIS, CT CHEST, CT HEAD:** Nothing by mouth for four hours prior to your appointment.

**CT LUMBAR SPINE, CT SINUSES:** No preparation is required.

### MAGNETIC RESONANCE IMAGING

No preparation required. Please inform our receptionist if you have a pacemaker, intracranial aneurysm clip, or inner ear implant, when making your appointment.

### NUCLEAR MEDICINE

Please contact either Pindara, Wesley or John Flynn locations for specific preparation.

### ANGIOGRAPHY

Clear fluids only for four hours prior to the examination. Patients will need to stay for approximately four hours after the examination.

### LIVER BIOPSY, UNDER ULTRASOUND OR CT

Clear fluids only for four hours prior to the examination. Note that you will need to stay in our department for approximately four hours after the procedure.

### BONE MINERAL DENSITY

No preparation required.
